and Amendments.

ORDINANCE NO. 437, AMENDING ORDINANCE NO. 166 and AMENDMENTS THERETO, TO PROVIDE FOR PLANNED UNIT DEVELOPMENT PERMITS, WAS PASSED AND ADOPTED.

A Public Hearing was held as per Resol. No. 62-23. There were no protests.

On motion of Supervisor Combs, and on second of Supervisor Rogers, Ordinance No. 437 was passed and adopted; and the Chairman of the Board of Supervisors was authorized to sign the Ordinance as follows:

ORDINANCE NO. 437

(An ordinance amending Yolo County Ordinance No. 166 and amendments thereto.)

The Board of Supervisors of the County of Yolo, State of California, DO ORDAIN AS FOLLOWS:

Section 1 - By adding Title 12 (a) to Yolo County Ordinance No. 166 and amendments thereto, said ordinance is hereby amended to read as follows:

Title 12 (a) - PLANNED UNIT DEVELOPMENT PERMIT:

Section 1 - Purpose: Where a special design proposal for a large scale development makes it desirable to apply regulations more flexible than those contained elsewhere in this ordinance, a Planned Unit Development Permit may be granted. The purpose of such permit is to grant diversification in the location of structures and other site qualities while insuring adequate standards relating to public health, safety, welfare, and convenience in the use and occupancy of buildings and facilities in planned building groups.

Section 2 - Conditions to be Fulfilled: In any district the Planning Commission may grant for a planned unit development exceptions to district regulations as to use, building height and/ or bulk, yards and open areas, or other provisions of this ordinance when the following conditions are found:

1. The tract or parcel of land involved must be a minimum of four (4) acres in area and must be either in one ownership or the subject of an application filed jointly by the owners of all property included.

2. The proposed development must be designed to produce an environment of stable and desirable character, and must provide over-all standards of population density, open space, circulation, and off-street parking in conformance with the Master Plan of the County and at least equivalent to those required by the terms of this ordinance for the zoning district in which the development is to be located.

3. The various elements of the development plan must relate to one another in such a way as to form a hormonious, integrated whole of sufficient unity to justify exceptions to the normal regulation of this ordinance.

Section 3 - Application: Application shall be filed with the Planning Department and shall be accompanied by a total development plan showing the use or uses, dimensions and locations of proposed structures, of parking spaces, and of areas, if any, to be reserved for streets, parks, playgrounds, school sites and other open spaces. The applicant shall also submit such other pertinent information as may be necessary to a determination that the contemplated arrangement or use makes it desirable to apply regulations and requirements differing from those ordinarily applicable under this ordinance. The filing fee for a Planned Unit Development Unit Permit shall be Fifty Dollars ($50.00), plus One Dollars ($1.00) per acre for each acre over five (5) acres.

Section 4 - Public Hearing: The Planning Commission shall hold at least one (1) public hearing on any proposed planned unit development permit application when it is initially submitted. No public hearing need be held on additions or modifications within the boundaries of the permit area which are submitted subsequent to the initial public hearing and approval; provided however that a hearing may be held by the Commission when it deems such to be in the public interest.

Section 5 - Action: The Planning Commission may authorize the development as submitted or may modify, alter, adjust, or amend the plan before authorization, and in authorizing, it may prescribe a time limit within which initial or total development must take place, and such additional conditions as are in its opinion necessary to assure completion of the development and the objectives of this ordinance. The development as authorized shall be subject to all conditions so imposed, and shall be excepted from other provisions of the ordinance only to the extent specified in the authorization.

Section 6 - Expiration: In any case where a planned unit development permit has been granted without a specified time unit and applicant has not within one (1) year after the date of granting said permit made substantial progress toward completion, the Planning Commission shall give notice by registered mail to the applicant to appear at the next regular meeting of the Commission to show cause why said permit should not be revoked.

Section 2 - In the event that any sections of Ordinance 166 and amendments thereto or of any other ordinances are inconsistent with the provisions of the sections as amended herein, the provisions of the sections as amended herein shall prevail.

Section 3 - This Ordinance shall take effect and be in force on April 1, 1962, and prior to the expiration of fifteen (15) days after the passage of this Ordinance, it shall be published once in the Woodland Daily Democrat, a newspaper of general circulation, printed and published in the County of Yolo.

Att: Mr. A. E. Rhoades, Jr., Director

Dear Sir:

We are pleased to be able to offer a quotation for Engineering and Surveying Services to complete the Broderick Assessment District for the installation of curb and gutter and storm drainage. This quotation will include and be limited to work necessary for the preparation of plans and specifications, completing construction, stake-out, and preparation of a complete assessment diagram.

The work would be performed as a joint venture between the firms of Laugenour and Meikle, Civil Engineers and Yolo Engineers And Surveyors Associated. A division of the work load, between the two firms would be set up, but each firm would be jointly responsible for the entire project.

We feel that a quotation on this type of a project must include some variables to cover unknown factors at this time. We would like to quote the preliminary field work on an hourly or per diem bases. The basic design would follow the Type BASCE Curve for design and the construction stake-out would be done again on a per diem or hourly basis. Our preliminary estimate of the construction costs of this project would indicate that it would exceed $100,000.00 dollars. On the basis of this figure we feel that for estimating purposes the preliminary field work would amount to approximately 1½% of construction costs, the design fee from ASCE Curve would be 6.90% and an estimate of the cost required for construction stake-out would be 2.00%. This would yield an estimated total of Engineering Fees of 10.40% of construction costs.

Our feeling is that since the County will be responsible for the maintenance of the project the actual inspection should be done by County forces. We feel that in order to satisfactorily perform a design supervision the grade checking of the forms should be done by the consultants at the request of the County Inspector and co-ordinated with his work schedule. Our per diem rates for a project of this type are as follows:

Two-man survey party	$16.00	per hour including equip. and mileage
Three-man survey party	$22.50	per hour including equip. and mileage
Four-man survey party	$28.00	per hour including equip. and mileage
Computer-Draftsman in office	$ 8.00	per hour

As consultants we would bear the cost of the Plan preparation and incidental work thereto until the contract for construction is signed. At the time the construction contract is signed we feel we should be paid for the preliminary field work and 75% of the design fee figure.

If you have any further questions or if you wish to discuss the matter further, please do not hesitate to let us know and we will be happy to meet with you.

Very truly yours,

YOLO ENGINEERS AND SURVEYORS ASSOC.

Gentlemen:

The following is in reference to your letter of February 13, 1962 relative to the charges to the County of Yolo for the Engineering and Surveying Services, to complete the Broderick Assessment District for Curb and Gutter, and necessary Street drainage.

It is our understanding of your proposed charges that for the preparation of plans and specifications design and for the preparation of a complete assessment diagram. The cost to the County would be 6.90% of the construction cost.

For all preliminary survey work and construction stake out and checking the charges will be on a per diem basis on the schedule as out lined in your letter of February 13, 1962.

With this clarification of the charges to be made, the other conditions of your letter of February 13, 1962, appears to be satisfactory. With your letter of approval at this clarification the proposal will be submitted to the Board of Supervisors for their approval.

At such time as the Board of Supervisors approves the proposal you will be informed so that the work may proceed.

Very truly yours,

AMENDMENT TO RADIOLOGY AGREEMENT

That the following paragraphs of that certain Contract entitled "Radiology Agreement" executed on December 15, 1958, by and between the Yolo General Hospital, an institution owned and operated by the County of Yolo, and therein designated as "Hospital", and George L. Alexander, M. D., therein designated as "Radiologist", is hereby amended as follows:

Paragraph 4 is amended to read:

FOURTH: The radiologist shall perform at a flat charge of $350.00 per month all of the diagnostic x-ray examinations requested by the resident County Physicians or by any physician acting as such for county-care in or outpatients, as submitted to the office of the Radiologist except as follows:

When county-care patients or patients hospitalized under the professional supervision of a County Physician or of a physician acting as such have monetary payments credited against the hospital billing by insurance carriers, a percentage of the total X-Ray Department charges equal to the percentage of the total hospital billing which was paid by the insurance carrier shall be used as a base and the Radiologist shall be entitled to forty per cent (40%) of this base as additional fees.

With respect to the services rendered for private patients who are under the professional medical attention of a private physician of the patient's own choice, the Radiologist's fee shall be fixed as follows:

From the total of bills as heretofore qualified from said preceding calendar month covering radiological and hospital X-ray services, forty per cent (40%) shall be the Radiologist's gross fees. The remainder of said billings shall be retained by the Hospital as compensation for the hospital services rendered to the patient. It is expressly agreed that the Hospital shall bear the expenses incurred under paragraphs FIRST and THIRD.

Paragraph 8 is amended to read as follows:

EIGHTH: In the event there is any disagreement as to the schedule, such disagreement shall be referred to the executive committee of the Yolo General Hospital Medical Staff for recommendation to the Governing Board whose action shall be final. The Hospital expressly agrees that the work of the X-Ray Department may be done by such assistant radiologists as the Radiologist may employ, or associates or partners in practice with Radiologist, so long as approval of the Hospital is obtained prior to such practice by assistant radiologists or associates or partners. Nothing contained in this paragraph or in this agreement shall be construed to permit assignment by the Radiologist of any rights under this agreement and such assignment is expressly prohibited.

NINTH: This agreement may be terminated at the option of either party hereto upon giving written notice thereof at any time.

All the terms and conditions other than those above mentioned contained in the Radiology Agreement above referred to, dated December 15, 1958, are made a part of this agreement as though fully set forth herein.

BOARD OF SUPERVISORS-
Minute Orders & Resolutions.

RESOLUTION NO. 62-67 WAS PASSED AND ADOPTED, OPPOSING THE PRESIDENTS' RECOMMENDATION FOR A TWO CENT FUEL TAX OR ANY USER CHARGE ON THE INLAND WATERWAYS OF THE NATION.

On motion of Supervisor McDermott and second of Supervisor Rogers, the Yolo County Board of Supervisors passed and adopted Resolution No. 62-67, and authorized the Chairman of the Board to sign the resolution as follows:

RESOLUTION NO. 62-67

WHEREAS, the President of the United States in his Budget Message of January 18, 1962, and again in his Transportation Message of April 5, 1962, recommended a user charge on inland waterways in the form of a two cents per gallon tax on fuel used by vessels engaged in commercial activities on these waterways; and

WHEREAS, the Sacramento-Yolo Port District is now constructing port facilities at Sacramento, California, involving considerable expense primarily to foster the commercial activity and future growth of Northern California by providing a more economical means of interchanging freight between deep sea ships, land transportation and inland waterway vessels; and

WHEREAS, the Sacramento-Yolo Port District which must objectively serve all forms of transportation is of the opinion that any form of inland waterway user charge will adversely upset the delicate balance of cost and rates between land transportation and inland waterway vessels which now permits the latter to provide the most economical transportation for over 2,000,000 tons of freight yearly on the Sacramento River; and

WHEREAS, private industry, since the Gold Rush Days of 1849 has relied on a free Sacramento River as a major factor in their determination to invest in factories, stores, distribution facilities and all of the other structures that have gone into creating the magnificent Sacramento Valley of today; and

WHEREAS, private industry is relying on an improved and free waterway, the Sacramento Deep Water Channel, as a basis of creating a more magnificent Sacramento Valley of tomorrow; and

WHEREAS, tolls on the Sacramento waterway could well negate this future; and

WHEREAS, user charges on the inland waterways could not possibly create a compensating reduction in the tax burden as although a two-cent per gallon fuel user charge on all Pacific Coast inland watersay common carriers, including those using the non-federally supported Pacific Ocean, would have brought to the Federal Treasury during 1959 almost ten per cent of these carriers' pretax profits, or $335,627.16, which is a huge sum to inland water carriers but is minute as compared to an eighty or ninety billion dollar Federal Budget;

NOW, THEREFORE, BE IT RESOLVED that the County of Yolo is opposed to the President's recommendation for a two cents fuel tax or to any user charge on the inland waterways of the Nation.

BE IT FURTHER RESOLVED that the Sacramento-Yolo Port District supports the continuation into perpetuity of the historic Northwest Ordinance of 1787 which established the policy of tollfree waterways.

PASSED AND ADOPTED this 16th day of May, 1962, by the Board of Supervisors of the County of Yolo, State of California, by the following vote:

This quotation will include and be limited to work necessary for the preparation of plans and specifications, completing construction, stakeout, and preparation of a complete assessment diagram.

Our estimate of the costs of this project is $ 23,200. We feel that for a project of this size the work should be done on an hourly or per diem basis. Also, since the County will be responsible for future maintenance of this road, the field inspection should be done by County personnel. Our per diem rates are as follows:

2 man party	$16.00	including mileage & supplies
3 man party	$22.00	" " "
4 man party	$28.00	" " "
Office	$8,00 - $12.00	" "

As consultants we would bear the cost of plan preparation and incidental work thereto until the contract for construction is signed. At this time, we should then be reimbursed for the preliminary field and design work.

If there are any further questions please advise us.

Thank you for this opportunity of being of service to your department.

Yours very truly,

Glenn E. Moeller

June 1, 1962

Honorable J. Dudley Stephens, Chairman
and Members of the Board of Supervisors
Courthouse
Woodland, California

Gentlemen:

At the budget hearings in August, 1961, it was agreed that the preliminary budget for 1962-63 should be submitted to your Honorable Board on June 1, 1962 (today), in order that the budget might be reviewed and approved prior to July 1, 1962, that being the beginning of the new budget year. As of this moment the respective departmental budgets have been printed and are presumably physically available. As of the close of business yesterday, May 31, 1962, the revenues accruing or received by the county during 1961-62 and the estimate of revenues for 1962-63 were not available from the County Auditor, nor was the total amount of the proposed budget available from the County Auditor. By law it is the responsibility of the County Auditor to tabulate the budget.

I am particularly concerned about the lack of information on county revenues since without such information the budget could be any amount and require an unknown tax rate. On April 27, 1962 after discussion and request by your honorable Board, I requested specific information by report from the County Auditor on county revenue be available to the Board of Supervisors on May 15, 1963. To date this information has not been made available to the Board of Supervisors. Underlying this request, of course, is the fact that any bank provides a monthly statement of expenditures (withdrawals) and deposits to private citizens, and the Board of Supervisors is entitled to the same information from the County Auditor. To date, the county revenues have not been available to the Board except once each year at budget time.

Because of these factors, I do not consider submission of the budget for 1962-63 to be proper at this time, and hopefully plan that such budget be submitted on June 15, 1962. That date will still enable thorough review to be made by the Board of Supervisors prior to July 1, 1962, and will enable the county to have a budget in existence during July and August, which has not been the practice in the past. The budget to be submitted on June 15, 1962 will be the best that can be done at the time, in view of the many fiscal and accounting difficulties that have emerged during the course of this year. Under no circumstances will I submit a budget to your Honorable Board which would involve a raid on the taxpayers of the county, or without full and complete information from the Auditor's office.

During the course of this fiscal year it has been necessary for the Board of Supervisors to require several special audits, which should have been unnecessary with proper functioning of the County Auditor's office. Necessary tranfers of funds for Road Department operations have been required, due to flagrant violations of the Collier-Burns Act relative to road operations. None of this information has been submitted to the Board of Supervisors by the County Auditor. Within recent days a serious audit report has been received from the State Department of Social Welfare. Despite these conditions the Board of Supervisors has provided additional personnel for the office of the County Auditor, and has made additional space available for that department during the course of this fiscal year; nor has any request of the County Auditor been denied. It has also been necessary for the Board of Supervisors to hire an independent firm of certified public accounts to completely re-work the accounting system of the county, and to carry out the related recommendations of the Grand Jury. However, there is no question that the staff of the County Auditor's office have worked faithfully and well under difficult circumstances. I sincerely believe that

fiscal responsibilities in this county cannot be achieved until there is a thorough reorganization in the office of the County Auditor.

Respectfully submitted,

Erwin W. Meier

QUESTION NO. 1

Pursuant to the authority vested in a Board of Supervisors sitting as a county board of qualization, may such board equalize the ratio of assessed valuation to full cash value on the categories of property in the event it is found that the ratio of assessed valuation to full cash value varies between land, improvements, and personal property in order that all categories of property may be taxed on an equal basis?

QUESTION NO. 2

Is the total county assessed valuation upon which the county tax rate is based required to be determined as provided in Article XI, Section 12, of the Constitution of the State of California, which provides that "All property subject to taxation shall be assessed for taxation at its full cash value"?

QUESTION NO. 3

In the event that the amount of assessed valuation of the property or properties included in the assessment roll of a county in California is less than full cash value, and the answer to Question No. 2 holds that Article XI, Section 12, is applicable, in what manner and by what agency would the valuations in the assessment roll be increased to full cash value in order that the level of assessments would conform to that constitutional requirement?

Mr. Tom Holland, Acting Director
Department of Public Works
Yolo County
Woodland, California

Dear Mr. Holland:

It now appears that, after extensive discussions, it is possible to clearly set forth our mutual understanding concerning the improvement of Stone Boulevard between Industrial and Park Boulevards, with particular emphasis on the area in front of the Port's new office building. The points of understanding are as follows:

1. Inasmuch as the addition of the two south lanes of Stone Boulevard are not to be constructed by the County at this time, we will not construct curb, gutter, and sidewalk at this time.

2. We will construct our office building parking lot in accordance with the plan enclosed, which contemplates draining the lot to the street.

3. Pavement of the parking lot would include pavement of the entrances up to the property line of the property which is being dedicated to the County by the Port.

4. It is anticipated that Yolo County will construct suitable flares from existing Stone Boulevard to connect with these entrances.

5. Yolo County will construct a valley drain along the south side of Stone Boulevard, draining to the east.

6. The Port District will supply adequate length of 12" CMP to pass the valley drain under the entrances to the parking lot.

7. The Port District will plant grass up to existing Stone Boulevard, including across the valley drain, and will maintain this planting.

8. The County will install a suitable shoulder on the south side of existing Stone Boulevard.

9. At such time as the County is prepared to proceed with the construction of the additional two lanes of Stone Boulevard, the Port District will at its expense install the necessary curb, gutter, and sidewalk. Such curb, gutter and sidewalk will be at grades that will permit the continued drainage of the parking lot to the gutter.

If the above correctly sets forth our understanding, will you please sign the duplicate copy enclosed and return for our files.

Very truly yours,

Melvin Shore

3 SEPARATE CONTRACTS

The Basic Rate applies to work let under a single contract. For any portions of the Project let under separate contracts, on account of extra service thereby required, the rate shall be four per cent greater, and if substantially all the Project is so let the higher rate shall apply to the entire Project; except that there shall be no such increase (1) on the plumbing, heating, electrical and other mechanical work, or (2) on any contracts in

From time to time during the execution of work and in proportion to the amount of service rendered by the Architect, payments shall be made until the aggregate of all payments made on account of the Architect's compensation under this Article, but not including any covered by the provisions of Article 4, shall be a sum equal to the rate or rates of commission arising from this Agreement, computed upon the final cost of the Project.

b) The Architect will make periodic visits to the site to familiarize himself generally with the progress and quality of the work and to determine in general if the work is proceeding in accordance with the Contract Documents. He will not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the work and he will not be responsible for the Contractors' failure to carry out the construction work in accordance with the Contract Documents. During such visits and on the basis of his observations while at the site, he will keep the Owner informed of the progress of the work, will endeavor to guard the Owner against defects and deficiencies in the work of Contractors, and he may condemn work as failing to conform to the Contract Documents. Based on such observations and the Contractors' Applications for Payment, he will determine the amount owing to the Contractor and will issue Certificates for Payment in such amounts. These Certificates will constitute a representation to the Owner, based on such observations and the data comprising the Application for Payment, that the work has progressed to the point indicated. By issuing a Certificate for Payment, the Architect will also represent to the Owner that, to the best of his knowledge, information and belief, based on what his observations have revealed, the quality of the work is in accordance with the Contract Documents. He will conduct inspections to determine the dates of substantial and final completion and issue a final Certificate for Payment.

c) If more extensive representation at the site is required, the conditions under which such representation shall be furnished and a Project Representative selected, employed and directed, shall be agreed to by the Owner and the Architect and set forth in an exhibit to this Agreement.

8 PRELIMINARY ESTIMATES

When requested to do so the Architect will furnish preliminary estimates on the cost of the Project, but he does not guarantee such estimates.

9 CONSTRUCTION COST OF THE PROJECT

The construction cost of the Project, as herein referred to, means the cost to the Owner, but such cost shall not include any Architect's or special consultants' fees or reimbursements or the cost of a Project Inspector.

When labor or material is furnished by the Owner below its market cost, the cost of the work shall be computed upon such market cost.

10 OWNERSHIP OF DOCUMENTS

Drawings and specifications as instruments of service are the property of the Architect whether the work for which they are made be executed or not, and are not to be used on other work except by agreement with the Architect.

11 SUCCESSORS AND ASSIGNS

Except as above, neither the Owner nor the Architect shall assign, sublet or transfer his interest in this Agreement without written consent of the other.

12 ARBITRATION

Arbitration of all questions in dispute under this Agreement shall be at the choice of either party and shall be in accordance with the provisions, then obtaining, of the Standard Form of Arbitration Procedure of The American Institute of Architects. This Agreement shall be specifically enforceable under the prevailing arbitration law and judgment upon the award rendered may be entered in the court of the forum, state or federal, having jurisdiction. The decision of the arbitrators shall be a condition precedent to the right of any legal action.

Dear Doctor Merrill:

Following my preliminary application for chronic disease funds for the purpose of providing services to the neurologically handicapped I would now like to submit the following somewhat more specific outline of the contemplated project.

There is a great need in this County to provide services for patients with neurological disorders, mainly those with convulsive brain disorders and those with so-called minimal brain damage. While such disorders are of course widespread in all age groups of the population, it is particularly in the case of children that the need for diagnostic and therapeutic services arises. Convulsive brain disorders are not covered under Crippled Children Services and schools sometimes have considerable difficulty in selecting the proper placement for children with minimal brain damage.

To provide a team approach for the remedy of the problem as it exists the following services would be needed; a properly qualified physician, neurological consultation including electroencephalographic studies, psychological evaluation, and drugs. I have taken the opportunity to talk to Dr. Peter Cohen from U.C. informally who has assured me of his interest and even his willingness to conduct monthly clinics in Yolo County. Neurological consultation could be obtained from Sacramento and psychological locally.

A tentative budget for this project would look as follows:

Clinician----------	$1000
Neurological Consultation----------	500
Psychological Consultation----------	500
Drugs----------	241
	$2241

The total, $2241, corresponding to the total amount allotted for out County.

It is anticipated that this program will be put into effect and the money spent during the first six months of 1962. Should our experience by then warrant continuation, or perhaps even expansion, of this program an application for additional funds will be submitted at the proper time.

Sincerely,

Herbert Bauer, M.D.

Dear Doctor Merrill:

It has been brought to my attention that my application of December 19, 1961, for funds to conduct a chronic disease program for the neurologically handicapped should be re-worded to emphazize the four main sections, namely of objective, achievement, appraisal and budget.

OBJECTIVE: To provide services which at present do not exist in this County and which are needed for casefinding, treatment, and rehabilitation of neurologically handicapped persons. Specifically we have in mind children with convulsive brain disorders, many of whom are at present without adequate medical supervision since this condition is not covered under Crippled Children Services. Other persons, children and grownups alike, with epilepsy or epileptic equivalent who may benefit from anti-convulsive medication; and students with so-called minimal brain damage who present placement difficulties in our schools since on the one hand they do need special kinds of education, but on the other hand, do not fit into the classes conducted mainly for the mentally retarded.

ACHIEVEMENT: It is intended to achieve the objective through casefinding, treatment, and continued supervision. Our public health nurses have already a list of persons, mainly children, with convulsive brain disorders who are in need of supervision. The pediatricians in our community have expressed their desire to refer neurologically handicapped children for diagnostic servies who cannot afford private medical care. The schools in the County quite frequently, through their psychological services, consult with the health department in the case of brain damaged children. Health department physicians are on the consulting staff of our County Hospital and it would be easy to refer patients from the hospital clinic to a newly established service. The County Welfare Department is often in need of diagnostic and therapeutic services for some of their clients who present neurological disorders of the type described.

APPRAISAL: It must admitted that in view of the relatively brief period of time between the establishment of this new service later in 1962 and possible termination in June 1962, no elaborate appraisal and evaluation system can be established. We will have to be guided mainly by three sets of factors: (1) the number of patients who received services, among them particularly those with previously unknown neurological handicaps and any demonstrable clinical improvement; (2) the degree of participation of referring agencies, mainly the County Hospital; the Welfare Department, the schools, private physicians, and the health department itself; (3) individual opinions obtained after the first phase of the project from attending physicians and consultants, mainly the chief clinician who possibly may be Dr. Peter Cohen from U.C.; our neurological consultant who may be recruited from Sacramento; and the psychological consultant whose services may be obtained locally.

BUDGET: A total of $2241 is the sum available to out County and it is realized that a breakdown will by necessity have to be an estimate. However, it is anticipated that the available money may be distributed as follows:

Clinician ----------	$1000
Neurological Consultation---------	500
Psychological Consultation--------	500
Drugs ----------	241
Total	$2241

We shall be happy to provide more specific information upon request.

Sincerely,

Malcolm H. Merrill, M.D.
Director of Public Health
State Department of Public Health
2151 Berkeley Way
Berkeley 4, California

Dear Doctor Merrill:

Following my previous and tentative application for MCH money for the purpose of providing services to adolescents, I would now like to submit a somewhat more specific project.

The objective of an adolescent clinic would be to provide health services for teenagers with particular attention to the pattern of growth and development characteristic of this age. While physical, emotional, and social factors will be considered, the particular direction of this clinic would be determined to a great extent by the needs and requests of the young people who participate.

Actual treatment of significant disorders would not be part of the clinic nor would there be any conflict with community mental health services which, however, at the present time are not as yet in existence anyway. Monthly evening clinics are considered in the main communities of our County such as Woodland, Daivs, Broderick, Esparto, and Winters. Age bracket would be from twelve to twenty-one years. Parents would be invited to attend and

the program would be conducted in close cooperation with the schools.

As part of physical examination immunization and tuberculin tests would be administered wherever indicated. The personnel needed for such services would consist of a public health pediatrician, a consulting psychologist, and perhaps occasional consultants from other fields.

Dr. Cecilia Johnson, our Assistant Director of Public Health, would be in charge of the program and being qualified both in pediatrics and in public health, would herself conduct the clinics. Since this would be in the evening and thereby outside of normal working hours I assume that there would be no objection to her being compensated for this additional responsibility.

A tentative budget outline would look as follows:

Physician----------	$2000
Psychologist (and other consultants)----------	500
Immunization material ----------	117
	$2617

The total, $2617, corresponds to the total authorized for this project.

It should also be mentioned that a group social worker assigned to this department by USPHS would be drawn into the picture to hold group sessions with the adolescents.

It is anticipated that this program will be put into effect and the money spent during the first six months of 1962, whereupon we shall re-apply for continuation and perhaps extention, of this program in case our experience by then seems to merit such consideration.

Sincerely,

Herbert Bauer, M.D.

Section 100

The step within each salary range payable to an employee within the classification to which such range is applicable shall be determined as follows, except that, if an employee begins his employment on the first working day of a month, it shall be considered for purposes of this section that such employment began on the first calendar day of that month:

(1) First Step, herein designated Step A shall be the minimum salary for the particular classification, and shall be the salary normally payable to employees commencing employment within such classification; provided that in instances where procurement of qualified personnel is difficult or an individual of unusual qualifications is employed, the Board of Supervisors may approve compensation of a new employee at the second or third step.

(2) Except as hereinabove provided, the second step herein designated Step B shall be the salary payable to an employee upon completion of a probationary period of six months and upon recommendation of the appointing authority and approval of the Board of Supervisors.

(3) The third step herein designated as Step C shall be the salary payable to an employee upon completion of one year's service at Step B and upon recommendation of the appointing authority and approval of the Board of Supervisors.

(4) The fourth step herein designated as Step D shall be the salary payable to an employee upon completion of one year of service at Step C and upon the recommendation of the appointing authority that the employee's work is above average and approval of the Board of Supervisors.

(5) The fifth step herein designated as Step E shall be the salary payable to an employee upon completion of one year of service at Step D and upon the recommendation of the appointing authority that the employee's work is outstanding and the approval of the Board of Supervisors.

(6) Adjustments or step increases as herein provided shall be effective on the first day of the month following approval of the adjustment.

(7) In any case where by reason of unusual circumstances, rigid adherence to the foregoing principles relating to salary adjustments would cause a manifest injustice, the Board of Supervisors on recommendation of the appropriate department head, may make such orders relating thereto as in its judgment is proper.

(8) Nothwithstanding the foregoing provisions of this section, an employee who is promoted or reclassified from one class to another, having a higher overlapping salary range, shall be adjusted to the minimum of the new range or to one step above his old salary, whichever is higher, but thereafter shall be governed by this section.

(9) Rates of compensation provided for by this ordinance, unless otherwise shown, are fixed on the basis of dollars per month for fulltime service in fulltime positions. If any position provided for in the budget is by appropriate language specified or indicated as being for less than fulltime service, the rate of compensation provided for such position shall be proportionately reduced, and in any instance where a regular work week in excess of that normally prescribed is required, the compensation may be proportionately increased.

Section 3 Section 102 of County Ordinance No. 421 is amended to read as follows:

Section 102

From and after the first day of January, 1958, each fulltime employee of the County shall be entitled to one (1) working day of sick leave with pay for each month worked. Such sick leave shall not exceed twelve (12) full working days for each year of full-time continuous service. All unused sick leave may be carried forward into each ensuing fiscal year and become part of the current allowance, provided, however, that no more than sixty (60) days may be accumulated by an employee. The sick leave time earned during the first six months of employment shall not be available to the employee until after the expiration of said months. Such sick leave pay can only be granted upon the written recommendation of the department head to the Auditor in case of illness of the employee or in the event of the serious illness

or death in the employee's immediate family. Immediate family means father, mother, husband, wife, son, daughter, sister or brother. The Board of Supervisors shall require evidence in the form of a physician's certificate or otherwise, of the adequacy of the reason for any employee's absence during the time for which sick leave is requested if such time exceeds three (3) days or is for a day preceding or following a three (3) day weekend. Sick leave absences with pay because of death in the employee's immediate family shall not exceed five (5) days for each instance. Illness accompanying pregnancy but not a normal condition thereof may warrant the granting of sick leave with pay when such illness is established by the certificate of the attending physician.

Routine doctor or dental visits and pregnancy in and of itself shall not be considered illness for granting of sick leave with pay. No payment shall be made on termination of employment by reason of cumulative sick leave. Sick leave may not be used in lieu of or in addition to vacation time, but an employee having a valid reason for a sick leave absence may take his vacation in addition to his cumulative sick leave time.

Injuries or illness or other conditions normally entitling an employee to sick leave with pay which occur while employee is on leave of absence shall not be covered.

Gentlemen:

The county agrees to bear the cost of crossing planks and pavement, estimated by your company at $350.00 in your letter of August 10, 1961, and to relocate your property fence. We will also furnish the descriptions and maps you requested.

With reference to your letter of September 28, 1961 we will negotiate with you on the price of your property at a later date, when we commence buying right-of-way.

In as much as the county and the Railroad Company appear to be in complete agreement at this time we will so inform the California Public Utilities Commission.

County of Yolo

Dear Sir:

Your letter of June 27, 1961, regarding the widening and alteration of County Road 102 at the Sacramento Northern's railway crossing near Woodland has been referred to this office for handling.

There are no objections to what you propose. As, in all other cases of this nature, the costs should be portioned in accordance with the Memorandum of Agreement between the railroads of the State, the CPUC and the State Highway Department. In accordance with this agreement, the Sacramento Northern will prepare its track to receive the new pavement, and the County would bear the cost of the crossing planks and install the pavement over the corssing. It is estimated the crossing planks, which would be installed by the railroad, would cost the County $350.

The widened road would reduce the holding pen for our stock corral by approximately 25 feet. We could agree to this but would expect the County to relocate the fence.

If you will express your agreement to accept billing as outlined above, and if you will agree to relocate the fence, the Railroad and County can be considered in agreement insofar as your CPUC agreement is concerned.

If you will forward metes and bounds descriptions and prints showing the easements over Sacramento Northern property required, the easements can be processed through our Management.

In furnishing the prints, the matter can be expedited if you could furnish a duplicate tracing of a letter-size drawing showing the Sacramento Northern property required.

Very truly yours,

RADIOLOGY AGREEMENT

THIS AGREEMENT made and executed in quadruplicate at Woodland, California, as of August 21, 1962, by and between the Yolo General Hospital, an institution owned and operated by the County of Yolo, hereinafter designated as "Hospital," and Leroy K. Mills, M. D., hereinafter designated as "Radiologist."

W I T N E S E T H:

WHEREAS, the County of Yolo is the owner and operator of a hospital at Woodland, California, in which there is located a Diagnostic Radiological Department, and

WHEREAS, the Radiologist is a duly qualified and licensed specialist, and

WHEREAS, the parties hereto are desirous of entering into this agreement in order to provide a full statement of their respective covenants and agreements in connection with the operation of said Diagnostic X-Ray Department in said Hospital during the term hereof;

NOW, THEREFORE, for and in consideration of the mutual covenants and agreements herein contained, it is understood and agreed by and between the parties hereto as follows:

FIRST: The Hospital shall supply, furnish, maintain, and control the operation of the Diagnostic X-Ray Department in the Hospital. The Radiologist shall use the premises solely for the practice of the specialty of Radiology for inpatients hospitalized under the professional medical care of a County Physician or under the professional medical care of any physician acting lieu of a County Physician; for such outpatients who may be referred by a resident County Physician or by any physician acting in their stead; for such inpatients as may be hospitalized at the Hospital under the professional medical care of a private physician of the patient's own choice; or such outpatients who may be properly referred by a private physician. No part of the premises shall be used at any time by any physician as an office for the general practice of medicine nor for a private practice of Radiology.

SECOND: The Radiologist shall be a member of the Medical Staff of Yolo General Hospital, subject to the Medical Staff By-Laws, Rules, and Regulations, and shall be granted such privileges as may be recommended by the Governing Board of the Hospital.

THIRD: All nonmedical personnel required for the proper operation of said X-Ray Department shall be selected and employed by the Hospital; however, the Radiologist shall be an addition member of the Medical Staff appointed to aid in the review of credentials and to recommend in writing the approval or disapproval in hiring of new Senior X-Ray Technicians.

FOURTH: The Radiologist shall perform at a flat charge of $350.00 per month all of the diagnostic X-Ray examinations requested by the resident County Physicians and/or by any physician acting as such for county-care or outpatients, as submitted to the private office of the Radiologist.

With respect to the services rendered for private patients who are under the professional medical attention of a private physician of the patient's own choice, the Radiologist's fee shall be fixed as follows:

From the total of bills as heretofore qualified from said preceding calendar month covering radiological and hospital X-Ray services, forty per cent (40%) of the gross fees shall be the Radiologist' fee , with the exception of the E. C. or emergency charges of such services as performed by the Yolo General Hospital X-Ray Technologists. The remainder of said billings, sixty per cent (60%), shall be retained by the Hospital as compensation for the hospital services rendered to the patient. It is expressly agreed that the Hospital shall bear the expenses incurred under paragraphs FIRST and THIRD.

FIRTH: The X-Ray Department charges are agreed to be in general accordance with customary local fees for comparable services. The Hospital and Radiologist shall prepare a schedule of fees for diagnostic X-Ray procedures done within the hospital's X-Ray Department, and any further changes shall be made by agreement between those parties. In the event there is any disagreement as to the schedule, such disagreement shall be referred to the executive committee of the Yolo General Hospital Medical Staff for recommendation to the Governing Body whose action shall be final. If said executive committee does not have a radiologist upon it, the executive committee shall consult a radiologist of its choice to act as a member of the said committee for the sole purpose of this paragraph. If there shall arise any question concerning the character of services furnished in said X-Ray Department, the Radiologist or the Hospital shall have the right to submit such matter for determination to the Yolo County Board of Supervisors, and its decision in that regard shall be final.

SIXTH: In the performance of the work, duties, and obligations devolving upon him under this agreement, it is mutually understood and agreed that the Radiologist is at all times acting and performing as an independent contractor practicing his profession of medicine and surgery and specializing in X-Ray diagnosis and treatment; that the Hospital shall neither have nor exercise any control or direction over the methods by which the Radiologist shall perform his work and functions excepting that said Radiologist does by this agreement agree to perform his said work and functions at all times in strict accordance with currently approved methods and practice in his professional specialty, and that the sole interest of the Hospital is to assure that said Diagnostic X-Ray work and service shall be performed and rendered in a competent, efficient, and satisfactory manner. All applicalbe provisions relating to licensing and regulating of physicians and hospitals shall be fully complied with by all parties hereto.

SEVENTH: In the event there is any disagreement as to the work schedule of the Radiologist such disagreement shall be referred to the executive committee of the Yolo General Hospital Medical Staff for recommendation to the Governing Board whose action shall be final. The Hospital expressly agrees that the work of the X-Ray Department may be done by such assistant radiologists as the Radiologist may employ, or associates or partners in practice with Radiologist, so long as approval of the Hospital is obtained prior to such practice by assistant radiologists or associates or partners. Nothing contained in this paragraph or in this agreement shall be construed to permit assignment by the Radiologist of any rights under this agreement and such assignment is expressly prohibited.

EIGHTH: This agreement may be terminated at the option of either party hereto upon giving a thirty (30) day written notice thereof to the other party.

IN WITNESS WHEREOF, the Hospital has caused this agreement to be executed and its seal to be hereunto affixed by its officers thereunto duly authorized and the Radiologist has executed this agreement by hereunto setting his hand as of the day and year first above written.

BOARD OF SUPERVISORS-
Senate Reapportionment-Prop. 23.

RESOLUTION NO. 62-127 WAS PASSED AND ADOPTED, OPPOSING PROPOSITION 23, TO REAPPORTION THE STATE SENATE OF THE STATE OF CALIFORNIA.

On motion of Supervisor McDermott and second of Supervisor Rogers, Resolution No. 62-127 was passed and adopted and the Chairman of the Board was authorized to sign the resolution as follows:

RESOLUTION NO. 62-127

WHEREAS, the Board of Supervisors of the County of Yolo, State of California, finds the present method of apportionment of State Senate Districts is fair, just, and equitable to all the citizens of the State of California; and,

WHEREAS, the Board of Supervisors of the County of Yolo finds no justification for a change in the present method of apportionment of State Senate District, particularly in view of the fact that under our existing method of legislative apportionment in California, this State has reached a measure of greatness unmatched by any of our sister states; and,

WHEREAS, a review of legislation by the State Senate of the State of California at the 1961 regular session conclusively shows the tremendous legislative support given by State Senators from rural counties in favor of matters pertaining and important to counties of Large population in the State of California; and,

WHEREAS, the Senate Reapportionment Initiative Constitutional Amendment that will appear on the November 6, 1962 ballot as Proposition No. 23 would irretrievably destroy our present system of equitable legislative apportionment and its protective mechanism of checks and balances, and would have the ultimate effect of districting the State Senate on the basis of population, which is the same basis for districting of the State Assembly; and,

WHEREAS, a Legislature including a State Senate apportioned in accordance with Proposition No. 23 would destroy the present balance with representation of all parts of our state as well as all of the people thereof, and would establish a dictatorship of one part of the state over all of the rest of the state, would encourage political bossism in major metropolitan areas, would destroy the unity of our state and would not be in accord with those sound democratic principles under which California has flourished for more than one hundred years; and,

WHEREAS, the approval by the voters of said Proposition No. 23 would thus deprive the citizens of the County of Yolo and all other lesser populated counties of adequate representation in the Legislature, and would subvert said citizens to the will of the voters in a few centers of heavy population; and,

WHEREAS, in 1960, the last attempt to reapportion the California State Senate, the voters in 57 of the 58 counties of the State of California voted overwhelmingly in opposition to reapportionment of the State Senate, and the proposition was defeated; and,

WHEREAS, the voters of the County of Yolo signified their disapproval of the last attempt to reapportion the State Senate in 1960 by a vote in excess of seven to one.

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of the County of Yolo does hereby unanimously oppose Proposition No. 23 to reapportion the State Senate of the State of California; and,

BE IT FURTHER RESOLVED that the Board of Supervisors of the County of Yolo hereby urges all voters at the General Election on November 6, 1962 to vote "NO" on Proposition No. 23; and,

BE IT FURTHER RESOLVED that the Board of Supervisors of the County of Yolo respectfully requests the Governor of the State of California to assert his opposition to Proposition No. 23 in order to maintain the democratic principles of government which have enabled this great state to prosper; and,

BE IT FURTHER RESOLVED that copies of this Resolution be forwarded to the Governor of the State of California, to State Senator Samuel R. Geddes, to State Assemblyman Lloyd W. Lowrey, to the County Supervisors Association of the State of California, and to the Chairman of the Board of each County Board of Supervisors in the State of California.

PASSED AND ADOPTED by the Board of Supervisors of the County of Yolo, State of California, by the following vote on the 17th day of September, 1962:

November 1, 1962

Honorable J. Dudley Stephens, Chairman,
and Members of the Board of Supervisors
Courthouse
Woodland, California

Gentlemen:

As one of his first assignments Mr. Howard Van Reyper, Jr., Director of Public Works, was requested to review the organization of that Department for its proper functioning. The review has been extensive and has now been completed. An organization chart has been prepared which relates specifically to the establishment of a Road Maintenance Division within the Department of Public Works. Certain aspects of this reorganization in this important function of county government are as follows:

(1) All personnel in the Road Maintenance division will be paid on a monthly basis. The present hourly method of computation has been cumbersome and time-consuming from a standpoint of record keeping, without any particular benefits being derived therefrom.

(2) The organization in this division also provides for certain new developments which will occur within a short period of time; in particular this refers to the establishment of a sewer plant operating unit which will come into being in the Davis El Macero area in the near future.

(3) The work of approximately ten separate units is divided up into two general operating sections--a road maintenance unit, and a general maintenance unit. The latter will include the bridge unit, the new sewer operating unit, equipment maintenance and repair, and the sign and painting unit. Both of these units will be under the supervision of the respective two Superintendent positions.

(4) In conjunction with the determination of the monthly salary ranges for these positions, a careful review has been made of over-time expenditures, and the proposed ranges as established for these positions provide that overtime payment in salary be discontinued for supervisory positions for this department, and for all other county departments, and that when over-time is needed and necessary that compensation for such over-time shall be in the form of compensatory time off.

(5) In conjunction with this reorganization of the Public Works Department and the establishment of the Road Maintenance Division within this department, it is also recommended that the County Garage facilities be transferred into the Department of Public Works, in order to consolidate county garage and equipment maintenance facilities under one centralized administration. Both of these facilities are now located on the same piece of property in the City of Woodland, and there is no justified reason for leaving these two units as separate operating facilities, with the County Garage reporting to the Purchasing Agent. Therefore, it is recommended that your honorable Board require that the County Garage, now under the supervision of the Purchasing Agent, be transferred to the Department of Public Works, effective January 1, 1963.

(6) This reorganization as proposed and recommended for your adoption will provide for a staff of approximately 60 positions. It is planned at this time that the positions for Sewer Maintenance Foreman and Bridge Maintenance Foreman will not be filled until absolutely necessary. The net result of the reorganization and the change in hourly rates to monthly salaries does not require additional funds, and actually, even if all positions were filled immediately which is not contemplated, the annual costs of these changes will still be substantially under the funds as budgeted in the present budget. The most important aspect of the reorganization is to provide for closer supervision and improved control of equipment maintenance and repair operations.

Respectfully submitted,
Erwin W. Meier

RESOLUTION NO. 62-156, SETTING PROCEDURE FOR APPROVAL OF CLAIMS, WAS PASSED AND ADOPTED.

On motion of Supervisor Combs, and on second of Supervisor Rogers, Resolution No. 62-156 was passed and adopted, and the Chairman of the Board of Supervisors was authorized to sign said resolution as follows:

RESOLUTION NO. 62-156

WHEREAS, this Board recognizes that it is in the best interests of and to the benefit of the County and of Vendors of the County that certain vendor claims be paid as expediently as possible; and

WHEREAS, under the provisions of Article 2, Division 3, Title 3 of the Government Code of the State of California (Sections 29740 through 29749, inclusive) the Board of Supervisors may adopt a procedure for allowance and payment of certain enumerated claims by the Auditor without prior approval of the board;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of the County of Yolo hereby adopt the following procedure for the approval of claims as provided hereinbelow:

1. The auditor shall audit and allow or reject claims in lieu of, and with the same effect as, allowance or rejection by the board of supervisors in any of the following cases:

   (a) The expenditures have been authorized by purchase orders issued by the purchasing agent or other officer authorized by the board.

   (b) The expenditures have been authorized by contract, ordinance, resolution, or order of the board.

   (c) Expenditures under the Welfare and Institutions Code have been ordered by the board.

2. The auditor shall issue his warrant on the county treasury for such an amount for each claim as he finds to be a correct and legal county charge. He shall not issue his warrant for any claim that has not been on file in his office for at least three days.

3. If the auditor finds that any claim presented is a proper county charge, but is greater in amount than is justly due, he may allow the claim in part and issue his warrant for the portion allowed.

4. If the claimant is unwilling to receive the amount tendered in full payment, he shall return the warrant to the auditor within 30 days after the tender together with his written refusal to accept the amount in full payment of the claim. The auditor shall immediately transmit the claim to the board, together with a statement of his action, his reasons therefor, and claimant's refusal. The board shall consider and take action upon the claim within 10 days after its receipt. It shall allow such an amount in payment thereof as is a proper county charge, not to exceed the amount claimed, and may require the claimant to accept the amount allowed in settlement of the entire claim. Sections 29703 and 29704 of the Government Code shall be applicable thereto.

5. If the auditor finds that any claim is not a proper county charge, he shall reject it and endorse his rejection thereon.

6. At least once each week the auditor shall transmit to the board reports of all claims rejected by him and not previously reported, showing, as to each claim: Date, name of claimant, amount, and reason for rejection.

7. The auditor shallprepare duplicate lists of all claims he allows, showing as to each claim: date allowed, warrant number, name of claimant, and amount allowed. He shall certify that the lists are correct, file one copy in the office of the board and preserve the other or a photographic copy thereof in his own office. As to such claims the lists constitute, respectively, the allowance book and the warrant book. If the allowance book is dispensed with by the board of supervisors pursuant to Section 25102, the auditor shall prepare only a single list of all claims he allows, in the form and according to the procedure required for duplicate lists, and shall file the list in his office as the warrant book.

8. The board may prescribe, by resolution, additional procedures for the audit and disposition of claims but the procedures so prescribed may not be inconsistent with the provisions of this chapter, of Chapter 2 (commencing at Section 700) of Division 3.5 of Title 1 of the Government Code, or of any other statutes or regulations expressly governing any such claims or the payment thereof.

9. The auditor shall require the certificates of the requisitioning, inspection, or receiving officers that the articles and services have been received or furnished.
